bizhub

C3110/C3100P

Giving Shape to Ideas

bizhub C3110

Scan, print, copy and fax*¹
functions consolidated
in a compact body
* Optional

bizhub C3100P

High performance and
productivity printer with
compact body.
To provide fast 31 ppm
output in both colour and
monochrome.

Mobile connectivity to support new work style

Compatible with wireless LAN environments

The bizhub C3110/C3100P can connect to a wireless LAN as a client*¹, giving greater flexibility when it comes to installation. Furthermore, the product can be used as an access point to create a wireless LAN environment*², thereby adding even greater flexibility to the working environment.

*¹ Optional Network Interface Card NC-P03 and Mounting Kit MK-P07 are required.

*² If it is used as an access point, it cannot be used as a client.

Authentication through Android device

User authentication*³ is now available via Android device with NFC antenna*⁴. Secure authentication will be same way as IC card authentication.

*³ Optional Authentication Unit AU-201S is required.

*⁴ Installation of the PageScope Mobile application to an Android device which has NFC and a host-based card emulation (HCE) function is required. Optional Hard Disk HD-P06 is required.

Outstanding affinity with mobile devices

AirPrint*⁵

Print from iOS device (iPhone/iPad/iMac/MacBook) without using printer driver.

Konica Minolta Print Service*⁵, *⁶

Direct print from any print function capable Android application to the bizhub.

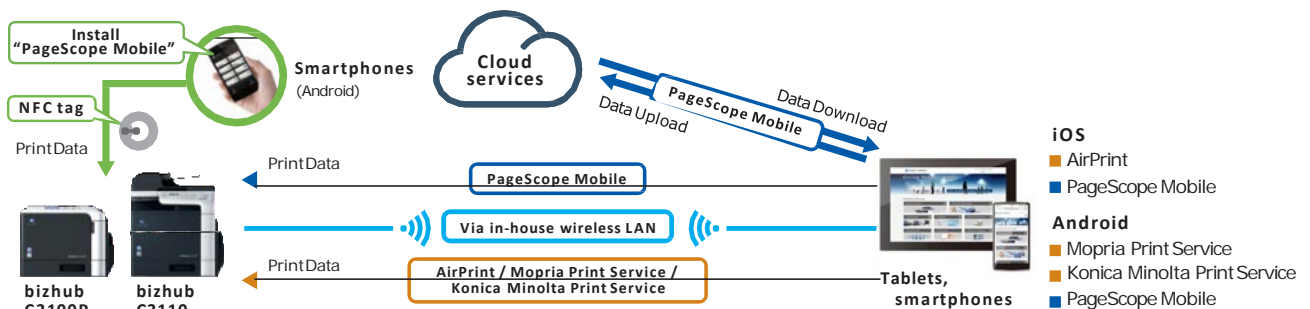

Mopria Print Service*⁵, *⁶

Print is possible from devices equipped with Android version 4.4 OS or later without using printer drivers.

PageScope Mobile*⁵, *⁶

Konica Minolta mobile print application for both iOS and Android devices. Use the Android version to print just by touching the NFC tag*⁷.

*⁵ Optional Hard Disk HD-P06 is required.

*⁶ Installation of applications in the mobile devices is required.

*⁷ The Android device must be equipped with an NFC antenna. First, you need to use the NFC Tag Writer to write device information to the NFC tag. The NFC tag is sold separately. Please contact your local Konica Minolta service provider for details.

High productivity and ease of use in a compact design

446.5 mm (W) × 544 mm (D) compact body

With a width of just 446.5 mm and depth of 544 mm, the bizhub C3110 and C3100P have very small footprints. In addition, legal size paper output*¹ is also supported. Moreover, 850-sheet paper capacity is available with the same compact footprint when the optional paper feeder unit is installed.

*¹ When feeding from the multiple bypass tray or the optional Paper Feeder Unit PF-P14.

One class above image quality and functionality within the compact body

High-speed output of 31 ppm for both colour and monochrome

The bizhub C3110 and C3100P can both print at a high speed of 31 ppm (A4, colour/B&W). A duplex printing function is equipped as standard.

Equipped with Konica Minolta's proprietary advanced Emperon controller

The Emperon printer controller developed from Konica Minolta's proprietary technology provides standard compatibility with mainstream page description languages*1 such as PCL, PostScript and XPS. Moreover, a variety of file formats such as JPEG, PDF and OOXML can be processed at high speed and output at high image quality. In addition to regular network printing, direct printing*2 of data stored in USB memory devices is possible without using a PC.

*1 PCL5e/c Emulation, PCL XL ver.3.0 Emulation, PostScript 3 Emulation (3016), XPS Ver.1.0 (With HDD installed), PPML/GA2.2 (With HDD installed), PPML VDX (With HDD installed), OpenXPS (With HDD installed), PDF1.7 (With HDD installed)

*2 Optional Hard Disk HD-P06 is required. Supported formats: PDF (up to 1.7), CPDF, JPEG, TIFF, XPS, CXPS, pptx, xlsx, docx, OpenXPS, PPML/GA2.2, PPML VDX

1,200 dpi High Quality mode

The bizhub C3110/C3100P feature a 1,200 dpi High Quality mode*3 which provides outstanding reproduction of small text and very thin lines. This allows more detailed output of highly elaborate diagrams and documents with small text.

*3 Output speed will be reduced.

ID (card) copy (C3110 only)

Both the front and back sides of small card size documents can be scanned and copied onto one sheet of paper to enhance convenience and save paper.

* Copy zoom ratio is fixed at 100%. Supported paper sizes are A4, letter and Legal only.

Auto duplex ADF as standard (C3110 only)

Standard automatic duplex ADF provides high-speed scanning at 30 sheets per minute*4, so that document scanning and printing tasks can be carried out speedily.

*4 A4 single-side only.

Super G3 fax function (C3110 only)

The super G3 standard fax function which utilises general subscriber telephone circuits speeds up transmission processing and reduces communication costs.

* Optional

Compliance with ISO/IEC 15408 certification (C3110 only)

The bizhub C3110 has obtained certification for ISO/IEC 15408, an international standard for data security.

* Optional Hard Disk HD-P06 is required.

Outstanding environmental performance

Compatible with global standards for environmental regulations

The bizhub C3110/C3100P conform to a variety of environmental regulations and standards around the world, including the International Energy Star Program Version 2.0, The Blue Angel, EPEAT, and China's Energy Conservation Certification and Environmental Labelling Program.

Energy Star

The Blue Angel

EPEAT

Energy Conservation Certification

China Environmental Labelling

Proprietary Simitri HD toner

The C3110/C3100P adopt Simitri HD toner which offers less environmental impact during its production and reduces power consumption with low temperature fusing. The toner is also carbon neutral as it is produced with plant-based biomass materials.

One-touch power saving key

The bizhub C3110/C3100P let you save power easily by switching to Sleep mode or ErP Auto Power Off mode with a push of a key on the control panel.

C3100P

- *C3110: Sleep mode: Long push of Scan button
ErP Auto Power Off mode: Long push of Copy button
- C3100P: Sleep mode: Short push of Power button
ErP Auto Power Off mode: Long push of Power button

Recycled materials and recycled PC for main unit

Environmentally conscious recycled PC is used in various locations of the main unit.

C3100P

OPS capability by excellent A3 MFP affinity

Improved device management with PageScope Enterprise Suite

The bizhub C3110/C3100P are compatible with the PageScope Enterprise Suite (PSES)*1 server management software. This software centralises management tasks such as account management, user and department authentication management*2 and authorisation management on networks, and reduces administrator burden in large-scale offices. It also provides printing management such as pull printing, and is available for both bizhub C3110/C3100P and bizhub A3 MFPs. Also, OPS (Optimised Print Services)*3 which are services provided by Konica Minolta can enhance the performance of PSES. OPS mainly offers optimised placement of office devices. This means that office devices can be utilised as efficiently as possible.

<Examples of supported applications>

PageScope Enterprise Suite

- PageScope Authentication Manager ----- Authentication management
- PageScope Account Manager ----- Account management
- PageScope My Print Manager ----- Pull printing
- PageScope Net Care Device Manager*4 ----- Device management

- *1 Optional Hard Disk HD-P06 is required.
- *2 Optional Authentication Unit AU-201S is required.
- *3 OPS (Optimised Print Services)
Konica Minolta's consulting service that proposes the optimal placement of devices to streamline the office document environment and further reduce total cost of ownership (TCO).
- *4 Freeware

IC Card Authentication

Main unit authentication is possible*5 when the optional IC card reader is installed. In addition to the above, installing PageScope Authentication Manager*6 allows integrated user management in mixed environments with A3 bizhub devices.

- *5 Optional Hard Disk HD-P06 is required.
- *6 PageScope Authentication Manager: Optional, Refer to left
